Make COPY format extendable

Sutou Kouhei
kou@clear-code.com

```
COPY ... FROM ... (FORMAT      );
COPY ... TO   ... (FORMAT      );
```

text, csv or binary

↓

Users can add more formats!
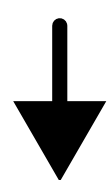

e.g.

APACHE ARROW Parquet JSON

Apache Arrow logo and Apache Parquet logo by The Apache Software Foundation are used under Apache License 2.0.
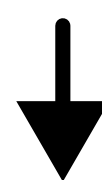

How to add?

```
CREATE FUNCTION
  my_format(internal)
  RETURNS copy_handler
  AS 'MODULE_PATHNAME',
    'my_format_handler'
  LANGUAGE C;
```

```
PG_FUNCTION_INFO_V1(my_format_handler);
Datum
my_format_hanlder(PG_FUNCTION_ARGS)
{
  bool is_from = PG_GET_ARG_BOOL(0);
  if (is_from)
    PG_RETURN_POINTER(&CopyFromRoutineMyFormat);
  else
    PG_RETURN_POINTER(&CopyToRoutineMyFormat);
}
```

↓

```
COPY ... FROM ... (FORMAT 'my_format');
COPY ... TO   ... (FORMAT 'my_format');
```
